

# 巡瞳康舒润抑菌液

## XUN TONG KANG YI JUN YE

# 视力下降的原因 Causes of Vision Decline

眼睛每天要上万次以上

The eyes blink over ten thousand times a day.

养成良好的生活习惯，保护眼睛，远离眼部疾病问题

Develop good lifestyle habits to protect your eyes and stay away from eye-related health issues.

# 市场前景 Causes of Vision Decline

## 手机辐射伤害大，你说有没有市场？

Mobile phone radiation is harmful. Do you think there is a market for it?

长时间对着电脑或看手机超过三个小时对眼睛的伤害非常大，很容易引起各种眼疾。

Prolonged exposure to computers or looking at your phone for more than three hours can be very harmful to your eyes and can easily lead to various eye problems.

## 白领、金领、上班族熬夜用眼过度你说有没有市场？

Do you think there is a market for white-collar workers, executives, and office workers who overuse their eyes and stay up late?

随着工作量的增加，生活潮流的不断变化加快，大多数人经常熬夜，工作时间过长用眼过度。

With the increasing workload and the accelerating changes in lifestyle trends, most people often stay up late and overuse their eyes due to long working hours.

## 护眼这个概念将成为生活不可缺少的必需品？

Will the concept of eye care become an essential part of daily life?

小孩预防近视，学生近视护理，老人预防各种眼疾，市场巨大。

Preventing myopia in children, caring for students' vision, and helping the elderly prevent various eye diseases—there is a huge market.

# 眼疾成为“国病”刻不容缓

Eye diseases have become a 'national ailment' that requires urgent attention.

- **全球失明人数3850万!**

There are 38.5 million people who are blind worldwide!

- **目前已知眼疾500余种!**

More than 500 eye diseases are currently known!

- **近视、老化、散光、青光眼、白内障、失明，各种眼疾扑面而来!**

Myopia, aging, astigmatism, glaucoma, cataracts, and blindness—various eye diseases are coming at us from all directions!

- **全球近视排名中国第1!**

China ranks first in the world for myopia!

## 大学生受近视困扰占比

Proportion of college students affected by myopia

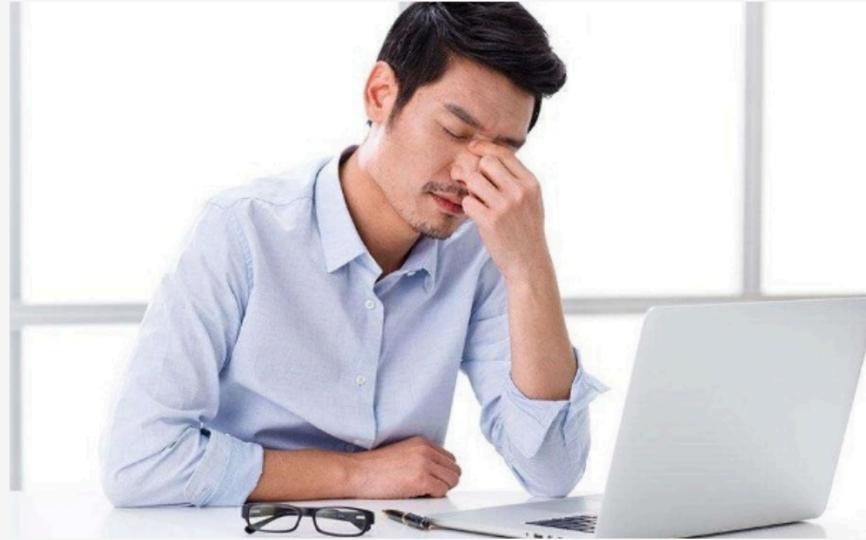

**90%**

## 眼疾可以预防规避占比

Proportion of eye diseases that can be prevented or avoided

**80%**

这就是现在的你吗？没有了明眸，突然变得“矮矬穷”  
Is this you now? Without bright eyes, you suddenly feel 'short, unattractive, and disadvantaged.

### 男生的你 You, as a guy

三年前男生的你，精光神采、  
双目如电，现在却是变得黯然无光

Three years ago, you, as a guy, were full of spirit and your eyes were like lightning; now, they have become dull and lifeless.

### 女生的你 You, as a girl

二年前女生的你，眸清似水、  
万种风情，现在却变得人老珠黄！

Two years ago, you, as a girl, had eyes as clear as water and were full of charm; now, you have become aged and lackluster.

### 童稚的你 You, as a child

一年前童稚可爱的你，灵气四射、  
纯真无邪，现在却变得呆滞无神！

A year ago, you, as a child, were adorable, full of vitality, and innocent; now, you have become dull and lifeless.

# 早晚滴两滴 世界更清晰

**全社会都要行动起来，  
共同呵护好孩子的眼睛，  
让他们拥有一个光明的未来。**

The whole society must take action to protect children's eyes together, so they can have a bright future.

# 国家政策扶持

Government policy support

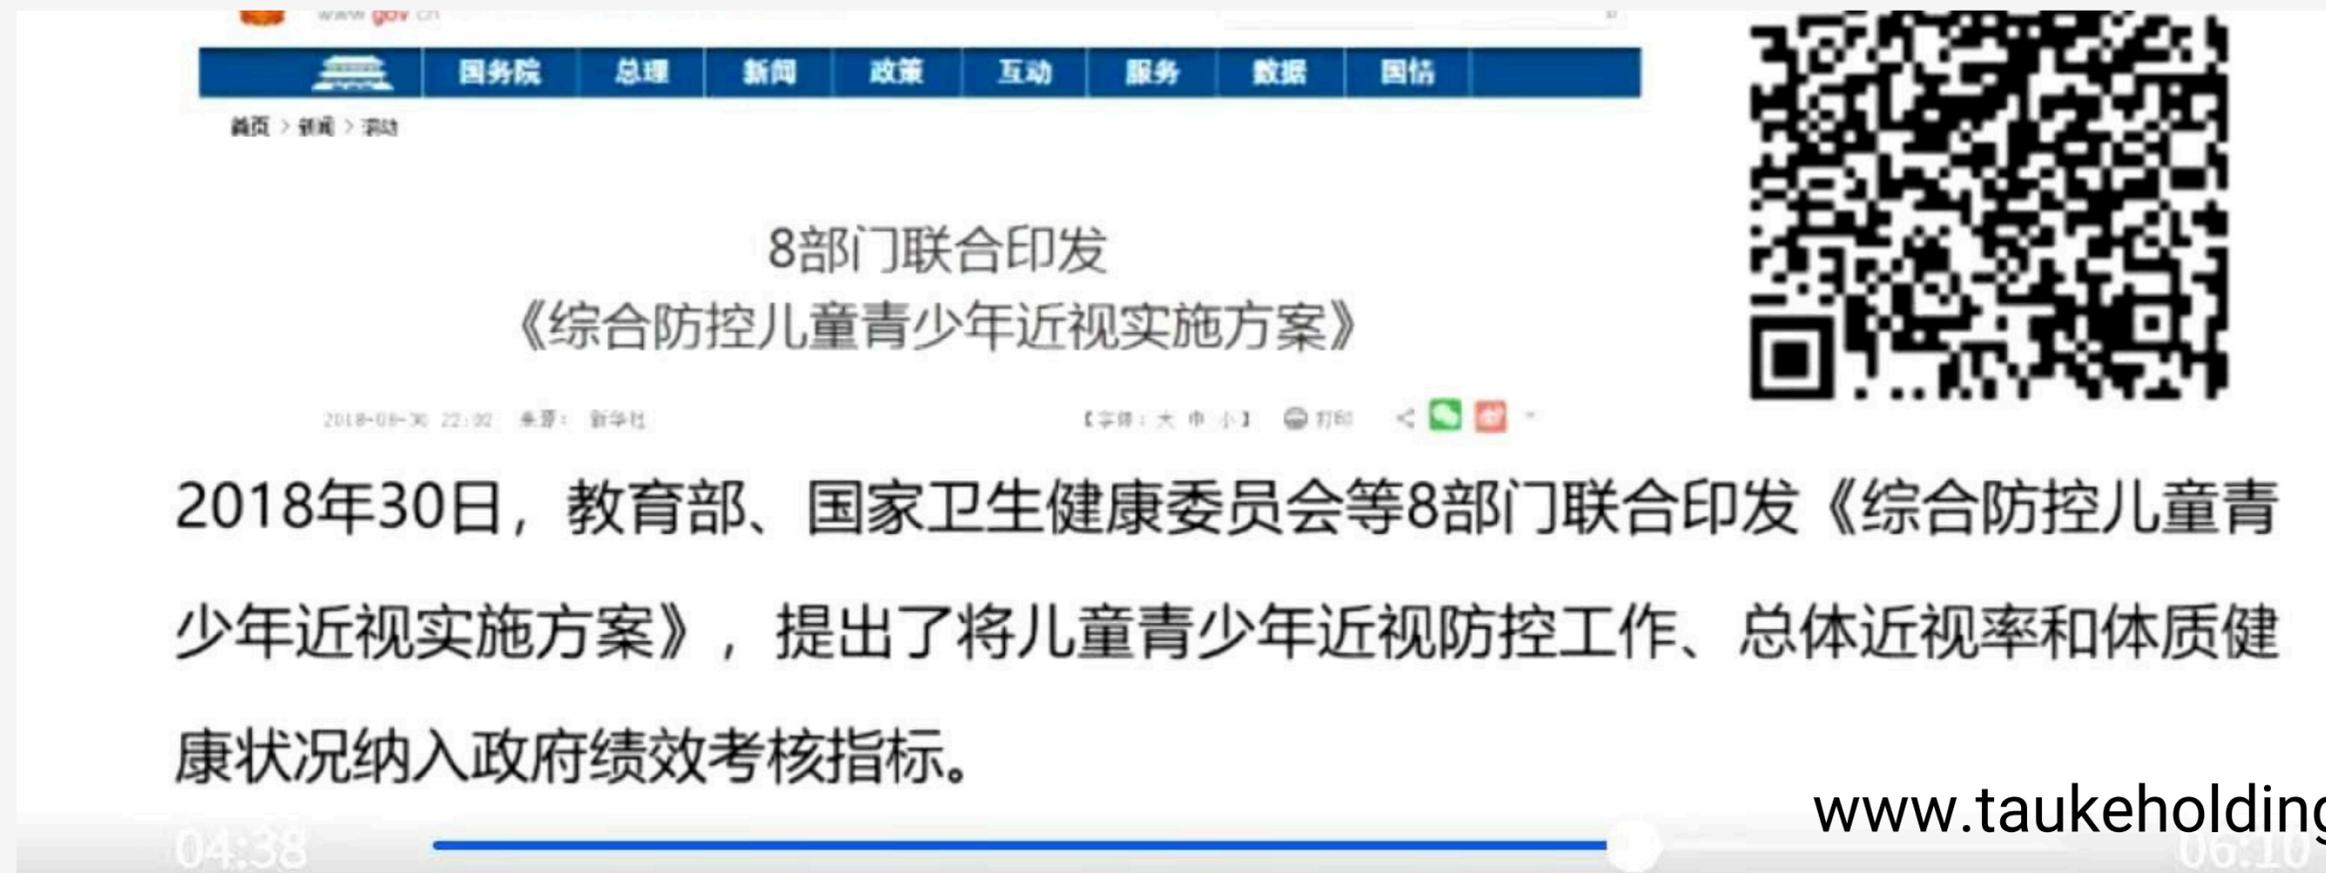

# 视力防控刻不容缓

Vision prevention and control is urgently needed

全社会都要行动起来，共同呵护好孩子的眼睛，还他们一个光明的未来！  
The whole society must take action to protect children's eyes and give them a bright future!

## 近视防控上升为国家战略

The screenshot shows a news article from the Chinese government website (www.gov.cn) titled "8部门联合印发《综合防控儿童青少年近视实施方案》" (8 departments jointly issued the 'Comprehensive Plan for Myopia Prevention and Control in Children and Adolescents'). The article is dated 2018-08-30 and published by Xinhua. It states that on August 30, 2018, the Ministry of Education, the State Health Commission, and seven other departments jointly issued the plan, which proposes to include myopia prevention and control work, overall myopia rates, and physical health status in government performance evaluation indicators. A QR code is visible on the right side of the screenshot.

国家政策扶持 Supported by national policies

视力防控刻不容缓 Vision care and prevention cannot be delayed

# “军令状”

## 全社会都要行动起来 共同呵护好孩子的眼睛

- 青少年视力两大“杀手”  
课业负担重  
沉迷电子产品
- 近视率纳入政府绩效考核  
高中新生增加  
1个防近视学分
- 青少年近视率居世界第一  
目前我国近视  
患者达6亿

改革中考招生评价标准

羊的学生，评价指挥棒至关重要。高考的指挥棒不归我们管，但是对中考的指挥棒，地方层面还是我们规定，在高考录取总成绩中，体育分值在现行50分的基础上增加到70分；增设学生综合素质评价能力、身体素质、艺术素养、创新实践等五个维度作为评价主要内容，分值50分，其中身体素质和体重作为主要评价指标。2022年中考开始执行，就是要向社会释放一个强烈的信号，“小眼镜中考中是要吃亏的。我们高兴地看到，这个指挥棒已经发挥作用了，各小学和初中都把体育课开足了，眼保健操都开始坚持做了。

部：裸眼视力作为中考招生主要评价指标，2022年开

Xuntongkang Antibacterial Eye Drop— Makes Your Eyes Brighter

01

### 专业研发 Professional Research & Development

30年专注研发，军事医学技术支持。

30 Years of Dedicated R&D, Supported by Military Medical Technology

02

### 专业保障 Professional Guarantee

太平洋保险公司承保。

Underwritten by Pacific Insurance Company.

03

### 专业效果 Professional results

有效调理视力疲劳、干眼症、视物模糊等27种眼睛亚健康问题。

Effectively improves eye fatigue, dry eye, blurred vision, and 27 types of sub-optimal eye health conditions.

03

### 专业产品 Professional product

消字号产品，更广泛，更安全！

Products with an official disinfection (Xiao) approval—broader use and safer!

# 巡瞳康抑菌液套盒 Xuntongkang Antibacterial Eye Drop Set

## 专业，为了您的眼健康。

Professional, for the health of your eyes.

- **主要成分：藏菊、密蒙花、石斛、决明子等萃取精华及植物叶黄素小分子肽**

Main ingredients: extracts of Tibetan chrysanthemum, Buddleja officinalis, Dendrobium, Cassia seed, and plant-derived lutein small-molecule peptides.

- **BFGF/EGF活性细胞生长因子及保密配方**

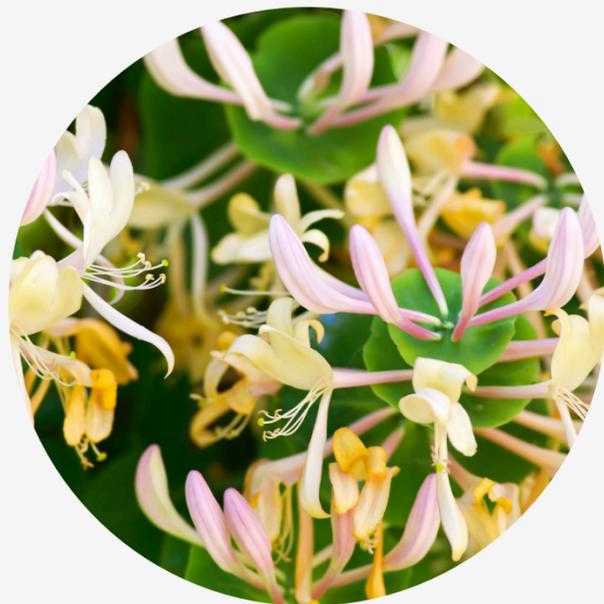

Active BFGF/EGF cell growth factors and proprietary formula

+ 改善视力疲劳

+ 缓解眼睛干涩

+ 呵护滋润眼睛

+ 补充眼睛水分

## 金银花 Honeysuckle

**清热解毒，消炎舒缓。**

Clears heat and detoxifies, reduces inflammation, and soothes.

## 黄柏 Phellodendron

**清热解毒、对眼睛分泌物过多视力模糊有很好的缓解作用**

Clears heat and detoxifies, effectively alleviating excessive eye discharge and blurred vision.

## 石决明 Abalone Shell

**别名“千里光”  
具有清热明目的作用，  
对目赤肿痛、  
视物昏花有很好的调理作用**

Also known as “Qianliguang,” it has the effect of clearing heat and brightening the eyes, and is effective in relieving red and swollen eyes as well as blurred vision.

## 薄荷脑 Menthol

**别名“眼睛草”清凉、止痒，  
缓解眼疲劳，清新明目**

Also known as “Eyebright,” it provides a cooling sensation, relieves itching, alleviates eye fatigue, and refreshes and brightens the eyes.

## 臧菊花 Tibetan Chrysanthemum

**又名七彩菊，含有大量的叶黄素。叶黄素可以防蓝光、抗辐射。**

Also known as "Seven-Color Chrysanthemum," it is rich in lutein. Lutein can protect against blue light and resist radiation.

## 密蒙花 Buddleja Flower

**清热泻火、养肝明目，针对眼干眼涩，目赤肿痛，眼生翳膜**

Clears heat and reduces fire, nourishes the liver and brightens the eyes, targeting dry and irritated eyes, red and swollen eyes, and the formation of eye films.

## 车前子 Plantago Seed

**通经络。对迎风流泪、视力减退有很好的作用**

Promotes meridian circulation and is effective for relieving tearing in the wind and improving decreased vision..

## 聚六甲基双胍

Polyhexamethylene Biguanide (PHMB)

**能够进入细胞膜，吸附细菌、病毒，并帮助眼睛通过眼泪、眼屎等代谢物把细菌、病毒、毒素等排出。**

Can penetrate cell membranes, adsorb bacteria and viruses, and help the eyes expel bacteria, viruses, and toxins through tears, eye discharge, and other metabolic substances.

# 有效才是硬道理!

Effectiveness Is the Ultimate Truth!

- **3分钟可见红血丝减弱!** Visible reduction of red veins in just 3 minutes!
- **15分钟改善视觉效果!** Improves visual appearance in just 15 minutes!

利用了现代生物技术，其形态为离化小分子，作用于眼睛，快速穿过蛋白通道进入组织细胞，参与细胞生物学作用。故而作用强劲，效果快且好。不但能激活细胞代谢，输入能量，且能调节紧张疲劳的睫状肌，改善视力清晰度。

It utilizes modern biotechnology and is in the form of ionized small molecules. When applied to the eyes, it rapidly passes through protein channels into tissue cells and participates in cellular biological processes. Therefore, its action is strong, fast, and effective. It not only activates cellular metabolism and supplies energy, but also regulates tense and fatigued ciliary muscles, improving visual clarity.

## 产品技术 Product Technology

- ①再生医学科技成果，逆转眼球受损细胞  
Achievements in regenerative medicine technology, reversing damaged eye cells
- ②纳米药载系统靶向技术和功能应答技术  
Nanocarrier targeting technology and functional response technology

## 产品三大核心作用 Three Core Functions of the Product

- ①深度杀菌消炎，打通眼底蛋白通道，通经络，通腺体。  
Deep antibacterial and anti-inflammatory action, clearing protein channels in the eye, unblocking meridians and glands.
- ②加速眼部微循环快速代谢，排除眼部垃圾和毒素。  
Accelerates ocular microcirculation and rapid metabolism, eliminating eye waste and toxins.
- ③补充眼部营养，激活慵懒细胞，修复受损细胞。  
Supplies nutrients to the eyes, activates dormant cells, and repairs damaged cells.

# ● 核心赖氨酸多肽，被誉为眼睛软黄金

Core lysine peptide, known as the “soft gold” for the eyes

- 叶黄素，被誉为视黄金，有效抗蓝光、抗氧化、抗辐射、抗病变、抗癌变。

Lutein, known as “gold for vision,” effectively protects against blue light, oxidation, radiation, degeneration, and cancer.

- 国内的叶黄素大多工艺粗糙，分子量大，而我们的叶黄素是纯德国进口原料的，黑科技、高提纯、小分子游离肽，能迅速进入细胞核，参与生物作用！

Most lutein in China is produced with rough processes and has a large molecular weight. In contrast, our lutein is made from pure German-imported raw materials, featuring advanced technology, high purity, and small-molecule free peptides that can quickly enter cell nuclei and participate in biological processes!

# ● 产品对比 Product Comparison

## 普通护眼产品 Regular eye care products

- 含有化学成分、防腐剂、抗生素、激素  
Contains chemical ingredients, preservatives, antibiotics, and hormones
- 不能长期使用  
Not suitable for long-term use
- 效果不明显，效果不稳定  
Ineffective and inconsistent results
- 只针对一种症状  
Only targets a single symptom
- 仅解决表面现象  
Only addresses surface-level issues
- 涂熏蒸疚抹，见效慢  
Applying, steaming, fumigating, or rubbing, with slow results

## 巡瞳康抑菌液 EYE DROP

- 纯植物提取，医养双效，防蓝光，抗辐射  
Pure plant extracts, dual medical and nourishing effects, blue light protection, and anti-radiation
- 可以长期使用  
Safe for long-term use
- 效果明显且稳定  
Effective and consistent results
- 可针对27种眼表疾病及亚健康症状  
Targets 27 types of ocular surface diseases and sub-health symptoms
- 可专业解决深层次问题  
Professionally addresses deep-seated issues.
- 液体直达病灶，见效快  
Liquid reaches the affected area directly, producing fast results.

早晚滴两滴，世界更清晰

Two drops morning and evening, see the world more clearly.

# ● 产品使用反应 Product Usage Reactions

**体验时，眼睛发痒？** Do your eyes feel itchy during use?

眼睛痒，是因为眼部干涩疲劳所致。  
Eye itching is caused by dryness and fatigue of the eyes.

**体验完了也没什么反应？** No reaction after the experience?

没有反应，主要是眼部代谢吸收较慢，需要继续坚持使用。  
No reaction, mainly because the eyes metabolize and absorb slowly, so continuous use is needed.

**体验完后，眼睛肿胀？** Are your eyes swollen after the experience?

体验完产品后，血液循环加快，垃圾毒素来不及排出来，形成堵塞现象，可以敷一下眼贴。  
After using the product, blood circulation accelerates, and waste toxins may not be cleared in time, causing blockages. You can apply an eye patch.

**体验时，眼睛刺痛？** Do your eyes sting during use?

有炎症，长期过度用眼，眼疲劳所致或结膜炎眼角膜发炎。  
Inflammation caused by long-term overuse of the eyes, eye fatigue, or conjunctivitis and corneal inflammation.

**分泌物（眼屎）多？** Excessive eye discharge (eye gunk)?

体验完产品后，加速了整个眼睛的代谢循环，眼睛会进行排毒，所以分泌物会增多。  
After using the product, the entire eye's metabolic circulation is accelerated, and the eyes undergo detoxification, so eye discharge may increase.

**体验完产品后，眼睛发红？** Do your eyes turn red after using the product?

在体验产品时最好控制在每只眼睛1-2滴。  
另外，眼睛很敏感或者做过手术的，都很容易出现发红的现象。  
这种情况停止使用，休息两天就可以继续使用了。

It is best to limit the use to 1–2 drops per eye during the experience.  
In addition, people with very sensitive eyes or those who have undergone surgery are more likely to experience redness. In such cases, stop using the product and rest for two days before continuing use.

# ● 产品使用 Product Use

3个月，巡瞳康帮你找回曾经的神采！  
In 3 months, Xuntongkang helps you regain your former sparkle!

- 精光神采、双目如电，如他英武  
Bright and spirited, eyes like lightning, exuding heroic strength.
- 眸清似水、顾盼生辉，如她风情  
Eyes as clear as water, sparkling with every glance, exuding graceful charm.
- 灵气四射、纯真无邪，如风少年  
Radiant with spirit, pure and innocent, like a youthful breeze.

● 每次一至两滴后闭眼休息三五分钟即可。  
After using 1-2 drops each time, close your eyes and rest for 3-5 minutes.

# ● 产品说明 Product Instructions

## 本产品不能替代药物

This product cannot replace medication.

### 1. 本品适用于7岁以上人群。

This product is suitable for individuals aged 7 and above.

### 2. 对本品过敏者禁用。

Not suitable for individuals allergic to this product.

### 3. 青光眼及甲状腺眼病和红眼病患者禁用。

Not suitable for individuals with glaucoma, thyroid eye disease, or conjunctivitis.

### 4. 使用本品时如有短暂痛感，属正常反应。

A brief stinging sensation during use of this product is a normal reaction.

### 5. 儿童使用需由专业人员指导。

Use by children should be guided by a professional.

### 6. 本品开盖后使用28天后弃之。

Discard this product 28 days after opening.

### 7. 产品性状改变停止使用。

Stop using if the product's characteristics change.
