Usage Method and Effects

## 使用方法 Directions for Use

### 清洗头发 Cleanse the Hair

使用前，应清洗头发，以去除头发上的油脂、灰尘和其他残留物，确保头发干净、干燥。

Before use, wash your hair to remove oil, dust, and other residues, ensuring that the hair is clean and dry.

### 涂适量精华 Apply an Appropriate Amount of Essence

早上或中午将适量的头皮养护精华涂抹在头发上，特别是白发多的部位，用梳子（细密）少量多次的梳抹均匀。按摩5-10分钟左右，会加快产品的吸收速度和效果。

In the morning or at noon, apply an appropriate amount of scalp care essence to the hair, especially on areas with more gray hair. Use a fine-tooth comb to distribute it evenly in small amounts multiple times. Gently massage for about 5-10 minutes to enhance absorption and effectiveness.

### 晾干头发 Air Dry the Hair

涂抹后，无需冲洗，让头发自然风干。建议使用6个小时后，进行冲洗头发。保持发根处干净。

After application, no need to rinse. Let the hair air dry naturally. It is recommended to rinse the hair after about 6 hours. Keep the hair roots clean.

# 问题解答

Frequently Asked Questions

# 白发转黑原理 Principle of Turning White Hair Black

01

## 中药提取液 Traditional Chinese Medicine Extract

主要成分包括黑灵芝、人参、何首乌、黑芝麻等，这些中药具有补气血、养肝肾、乌须发的功效，能够促进毛囊内络氨酸酶活性，使毛发更加乌黑浓密。

The main ingredients include Ganoderma lucidum (black lingzhi), ginseng, Polygonum multiflorum (He Shou Wu), black sesame, etc. These traditional herbs are believed to tonify Qi and blood, nourish the liver and kidneys, and help darken and strengthen hair. They may help enhance the activity of tyrosinase in hair follicles, making the hair darker and thicker.

02

## 天然色素 Natural Pigments

主要包括艾叶、当归、侧柏叶等，这些天然色素具有抗氧化、抗疲劳的作用，能够促进头发内黑色素的合成，使头发更加乌黑亮泽。

Main ingredients include mugwort (*Artemisia argyi*), Angelica sinensis (*Dang Gui*), and Platycladus orientalis leaf (*Biota leaves*). These natural pigments have antioxidant and anti-fatigue properties, and may promote the synthesis of melanin in hair, making it appear darker and more lustrous.

03

## 光合作用 Photosynthesis Effect

通过光合作用补充毛囊和白发流失的黑色素，能够使头发根部的新发呈现深棕色或棕黑色。

Through a "photosynthesis effect," it is claimed to replenish the melanin lost in hair follicles and white hair, allowing new hair at the roots to grow in dark brown or brown-black tones

# 白发根部转黑问题 Darkening of White Hair Roots Issue

## 新发与旧发颜色不同 Different Colors Between New and Old Hair

在使用黑发产品后，新长出的头发与旧发颜色可能会有些许不同，这是因为黑色素的合成需要一定的时间，而且每个人的体质和代谢情况不同，导致着色程度和时间也不同。

After using hair-darkening products, newly grown hair may differ slightly in color from existing hair. This is because melanin synthesis takes time, and individual differences in body condition and metabolism can affect the degree and speed of coloration.

## Issue of Darkening at the Roots 根部转黑的问题

长期使用黑发产品后，会有一部分白发根部转黑的现象，但不承诺根治。有部分白发是跟人体的气血肝肾有关，长期使用能延缓白发的生成。

With long-term use of hair-darkening products, some white hair may gradually turn darker at the roots. However, this is not guaranteed to be a permanent solution. Some cases of white hair are related to overall body condition, such as blood circulation and liver and kidney health. Continued use may help slow down the formation of white hair.

## 着色程度控制 Control of Color Intensity

通过多次使用黑发产品，可以控制头发的着色程度。如果想让头发的颜色更深一些，可以反复喷涂几次，直到达到想要的颜色。

By using the hair-darkening product multiple times, the intensity of hair color can be adjusted. If a darker shade is desired, the product can be applied repeatedly until the preferred color is achieved.

# 关于产品效果的疑问

Questions About Product Effectiveness

## 产品效果因人而异

Product Effects May Vary

每个人的体质和代谢情况不同，使用黑发产品的效果也会有所不同。一般来说，使用黑发产品后会在3- 5天看到明显的效果，但也可能需要更长时间才能看到效果。

Individual body condition and metabolism differ, so the results of using hair-darkening products may vary from person to person.

Generally, noticeable effects can be seen within 3–5 days after use, but in some cases, it may take longer to achieve visible results.

## 着色程度与使用时间

Color Intensity and Duration of Use

随着使用时间的延长，头发的着色程度会逐渐加深。但是要注意，使用黑发产品并不能保证根治白发，只能延缓白发的生成。

With continued use, the depth of hair color will gradually increase. However, it should be noted that hair-darkening products cannot guarantee a permanent cure for white hair; they can only help slow down the formation of gray hair.

## 安全性

Safety

黑发产品安全性较高，不含任何化学染发剂成分，孕妇及染发过敏人群都可以使用。但是要注意，使用黑发产品时要按照说明书进行稀释和涂抹，避免过量使用导致头发受损。

Hair-darkening products are generally considered safe and do not contain chemical hair dye ingredients. They are suitable for pregnant women and individuals with dye allergies. However, it is important to follow the instructions for dilution and application to avoid overuse, which may cause hair damage.

# 关于部分白发与人体气血肝肾的关系

On the Relationship Between Partial Gray Hair and Qi, Blood, Liver, and Kidney (TCM Perspective)

## 白发与气血关系

Gray Hair and Qi & Blood

中医认为，气血失调可能导致头发变白。气血不足或气血运行不畅都可能影响毛囊的正常功能，导致头发变白。

According to Traditional Chinese Medicine (TCM), an imbalance of Qi and blood may lead to hair turning gray. Insufficient Qi and blood or poor circulation can affect the normal function of hair follicles, resulting in graying.

## 白发与肝肾功能

Gray Hair and Liver & Kidney Function

中医认为，肝肾功能失调也可能导致头发变白。肝主疏泄，调节气血运行；肾主生殖，决定头发的生长和脱落。

肝肾功能失调可能导致头发变白。

TCM also believes that dysfunction of the liver and kidneys may contribute to gray hair. The liver is responsible for regulating the flow of Qi and blood, while the kidneys govern reproduction and influence hair growth and shedding. Imbalances in these organs may lead to hair turning gray.

## 长期使用的影响与效果

Effects and Results of Long-Term Use

长期使用本产品可以促进毛囊内酪氨酸酶活性，使毛发更加乌黑浓密。但是，由于头发的生长周期和遗传因素等的影响，使用效果可能会有所不同。

Long-term use of this product may help enhance the activity of tyrosinase in hair follicles, making hair appear darker and thicker. However, due to factors such as the hair growth cycle and genetics, the results may vary from person to person.
